## USER STORIES FOR RELEASE

### ***SPRINT 1***

Format: (story point) [user story] {priority}

As a student, I need to have an account and be able to login so that I can use the service {priority:1}

As a student, I want to add classes so that I can add course information for the classes {priority:2}

As a student, I want to look at courses review so that I can have better preparation {priority:3}

As a student, I want to ask questions related to a class or a department in a forum so that I can get help from others {priority:4}

### ***SPRINT 2***

Format: (story point) [user story] {priority}

As a student, I want to access course notes from other students so that I can better understand the courses {priority:1}

As a student, I want to upload course notes so that others can benefit from it. {priority:2}

As a student, I want to answer other students' question so that the issue can be solved. {priority:3}

As a student, I want to look at the professor review so that I can decide whether I want to take classes with the professor {priority:4}

### ***SPRINT 3***

Format: (story point) [user story] {priority}

As a student, I want to post my used textbook information so that other students can buy them {priority:1}

As a student, I want to sell my textbooks to other students so that I can make money {priority:2}

As a student, I want to have a page that show all my activities so that I can edit my content {priority:3}

As a student, I want to look at grade distribution of the class by different quarter and professor so that I can know the difficulty of the class {priority:4}

### ***PRODUCT BACKLOG***

1. Be able to send private messages to each other by users
2. Be able to prevent malicious damage from users
